HIGH PERFORMANCE

Heating and cooling power delivered with low energy consumption.
High SEER and SCOP indices.

The FIRST roof air conditioner from EZA has been developed in collaboration with the world leader in domestic and professional air conditioning. Thanks to its aerodynamic design and excellent performance, it meets the expectations of demanding users. It features a totally silent reversible heat pump. With an output of 8530 BTU/h in cooling mode and 7500 BTU/h in heating mode, its diffuser is equipped with LED lighting and features oscillating fins for even air distribution, with an adjustable flow rate from 130 to 340 m³/h. Thanks to its Soft Start function, the FIRST air conditioner can be started from any 220 V power source. The appliance comes with an LCD screen remote control for easy viewing of the settings. The unit is installed in a 40 x 40 cm opening. A hardware configuration is recommended for vehicles no longer than 7 metres.

EXTRA-SLIM DIFFUSER

The EZA roof-mounted air-conditioning unit features ambient lighting and an LCD display. With its extra-slim dimensions, it can be installed on the central rooflight or in the bedroom.
