YOUR NEW MULTI-PURPOSE COMPANION, IDEAL FOR OUTDOOR USE!

Discover EZA's top 3 ways tabletop refrigerator, the quintessential all-rounder for all your refrigeration needs, particularly suited to outdoor adventures. Its major advantage lies in its ability to operate on three different power sources: 12V, 230V and gas.

Tri-mixed power supply : Take advantage of the flexibility offered by this tri-mixed refrigerator, capable of operating equally well on a conventional 230V power supply as on a 12V battery, or even on gas, offering unprecedented autonomy.

Easy control : set the temperature easily using the knob on the front of the fridge.

Quiet : Absorption technology ensures quiet operation for a peaceful environment: ideal for napping under your awning while keeping your drinks cool for when you wake up!

Practical and sturdy : its front opening allows you to place the fridge on a piece of furniture to position it at the desired height; all in a sturdy material that guarantees long-term durability.

Safety : When you're not using it, its door locking system will come in very handy when your vehicle is on the move.

Ideal for outdoor use : With its ability to run on a 12V battery or gas, this non-recessed appliance will be the ideal choice for outdoor use!

Choose absolute versatility with the EZA tri-mix table-top refrigerator, designed to meet all your needs, whether at home or on your outdoor escapades.
