

### **FLEXIBLE**

Flexible panel that adapts perfectly to slightly curved surfaces

### **WATERPROOF**

Ideal for all situations: boating, camping, travelling...

### **SLIM SIZE**

With its 2 cm thickness, you can keep the height of your vehicle unchanged: car park access, toll vehicle class, etc

### **RELIABILITY**

Quality manufacturing guarantees a minimum nominal power deviation of +/- 3%.

## **COMBINE POWER AND FLEXIBILITY WITH EZA!**

With its range of SEMI-FLEX PERC solar panels, EZA offers panels with outputs ranging from 100 to 180 watts. With a flexibility angle of up to 5°, EZA SEMI-FLEX PERC solar panels have been specially designed to fit all types of vehicle: vans, camper vans, boats, etc. Thanks to PERC cells, you'll get optimum performance to match your needs. Ultra-lightweight and just 2 cm thick, they enable vans to remain less than 2 metres high, so they can still pass under the barriers at car parks and remain Class 1 at toll booths. In short, this technology offers you a number of advantages: significant aerodynamic gains, improved durability, high efficiency and reduced weight.
