

### MULTI ENERGY

3 power sources available

### VOLUME

Space for 2L bottles

### ROBUST

Solid metal and plastic design

### INSULATION

Thick walls and lid with rubber seal

#### 42L HYBRID COOLERS

An efficient cooler on the move or at home: the 42-litre Hybrid cooler from EZA!

Dual refrigeration technology: powerful compression refrigeration using a 220/240 V household socket (nominal input power 70 W) and economical thermoelectric refrigeration using a 12 V cigarette lighter socket (nominal input power 55 W).

- The compressor function: this reduces the temperature from +20°C to -15°C, so you can keep food and drinks cold whatever the ambient temperature, but also freezes them and keep them frozen.

- Thermoelectric function: cools down to 15°C below the ambient temperature and maintains it at the desired temperature.

The 42L interior space has been optimised so that you can carry your 2L bottles vertically.

In addition to its technological prowess, the manufacturer's attention has been focused on insulation reinforced by an injection of polyurethane foam forming a perfect thermal envelope and a lid with a peripheral rubber seal to eliminate heat loss.

#### 42L ABSORPTION COOLERS

The absorption cooler gives you total freedom. It runs on three different energy sources:

- From a 12V (direct current) socket in your vehicle,
- On a 230V / 240V socket (alternating current) at home or at the campsite,
- With a butane gas cylinder, when you're out in the wilderness you'll be totally independent of the electricity grid.

The 42L interior space has been optimised so that you can carry your 2L bottles vertically.

Be eco-responsible and choose an energy-efficient cooler:

- EU 230V / 240V plug - 8.4 Ah consumption over 24 hours.
- Via a 12V cigarette-lighter socket - consumption 170.4 Ah over 24 hours. This mode is reserved for maintaining the cold during journeys.

- By butane gas, with a pressure of 28 to 30/37 mbar - consumption of 384 g over 24 h.

As well as low consumption, the cooler's insulation plays a vital role! The insulation has been reinforced with a double layer of walls (metal and polyurethane foam) and a lid with an integral rubber seal to eliminate all heat loss.

# The COOLER RANGE

## HYBRID / ABSORPTION

PRODUCT FEATURES	522348	522347
TECHNOLOGY	ABSORPTION	HYBRID
CAPACITY VOLUME (in L)	42L	
POWER SUPPLY TYPE	12/220V - GAS	12/24/220V (optional)
CONSUMPTION (in Watts)	12/24V - 50W / 220V - 70W	12/24V - 50W / 220V - 70W
OPERATING TEMPERATURE RANGE (in C°)	22-25°C below ambient T°C	220V : +20 °C to -15 °C 12/24V : up to 15°C below ambient temperature
FREEZING FUNCTION	NO	
MODE OF COMMUNICATION	GAS INDICATOR / SPIRIT LEVEL	CONTROL BUTTON
MAX. BOTTLE CAPACITY	2L	
OPENING TYPE	FRONT ONLY	
HOUSING TYPE	Metal / PU form	Metal + PP + PU foaming
COLOURS	DARK GREY	
EXTERIOR PRODUCT DIMENSIONS IN MM ( L x W x H )	502 x 473 x 490	502 x 489 x 466
INTERNAL PRODUCT DIMENSIONS IN MM ( L x W x H )	415 x 270 x 375	401 x 286 x 370
NET WEIGHT	16,5KG	18,2KG
SUPPLIED WITH	12V CIGARETTE LIGHTER CABLE 2.5M	
CERTIFICATIONS, APPROVALS	CE	
WARRANTY	2 YEARS	

LOGISTICS DATA	522348	522347
EAN CODE	3700628258490	3700628258476
CUSTOMS CODE	8418219190	
SUPPLIER ORIGIN	CHINA	
DIMENSIONS IN MM PACKAGED PRODUCT ( L x W x H )	545 x 560 x 565	580 x 570 x 506
PACKAGING	BROWN CARTON	
GROSS WEIGHT (KG)	19KG	21,3KG
QTY CARTON	1	
QTY / MASTER CARTON / GROSS WEIGHT	NO MASTER CARTON	
QTY PALLET / GROSS WEIGHT	12 pcs/234 kgs	16 pcs/320 kgs
QTY PER 20' CT	120	160
QTY PER 40' CT	240	320
